

No. 24,116. Registered at the General Post Office, Sydney, for transmission by post as a newspaper.

SYDNEY, SATURDAY, APRIL 24, 1915.

26 PAGES.

PRICE, 1d.

## SUMMARY.

The Under-Secretary for War declared that the British had been successful in the last few days in the operations of the front line.

Lord Kitchener, he added, desired to re-emphasize the importance of an unlimited supply of munitions and ammunition.

The British repulsed two attacks near Langermark, and the French carried two lines of trenches in the forest of Agremont.

Two French armoured cars were destroyed by a storm of shot and shell from nearly 30 anti-aircraft guns.

Though the pilot had not been cut off, he navigated the machine 15 miles back to safety.

The Germans bombarded Sydney on Wednesday, inflicting considerable damage, many persons killed or wounded.

"Eye-witness" states that motor machines were rendered inoperative at Hill No. 10, a counter-attack was made.

All shipping between Holland and the United Kingdom has been temporarily suspended.

No explanation is offered in the official statement by the British authorities.

Berlin announced that British submarines were repeatedly observed in Holland waters.

It is confidentially announced that the new Russian artillery is proving remarkably efficient.

The Russian eight attacks at Teplow were repulsed. The Russians counter-attacked with the bayonet, and inflicted heavy loss.

A French wireless message states that British and French troops have landed at Enez (Turkey in Europe).

The Allied forces are bombarding the Gallipoli Peninsula, where the Turks are erecting fortifications.

The defeat of the Turks at Shaba was very complete, munitions and ammunition were being abandoned.

Prime von Bismarck informed Senator Carafra that if he broke out Germany would stand by Austria.

Negotiations, he said, on the subject of Italy's demands to Austria had not proceeded.

Sensor Carafra reported the conversation to the Premier, Senator Salandra, who was unmoved.

Italy has suspended the running of the Governor's passport, which have been required by the Admiralty.

Rising was renewed at Trieste as a result of a continuous to arms of males between 14 and 16 years.

Several thousand women led the rioters to the Governor's palace, the threat of troops being a serious deterrent.

Dockers scuttled a large steamer which was about to leave with 300 tons of food for the Gallipoli campaign.

In German Southwest Africa, General Van den Bergh defeated the Germans at Kama, 20 miles north of Keetmanshoop.

The British Conference, by 520-000 votes, repulsed a resolution in favour of a national strike.

Mr. Walter Hume, president of the British Trade Union, met a delegation of coal miners at Whitehall yesterday.

It was agreed to recommend various districts to consider the improving of the price of coal.

Mr. Fisher said yesterday that he had received an invitation to the Premier's Chamber to be held in Sydney.

He had not yet decided when he would leave for Sydney.

Mr. Hoffman stated last night that the appointment to the Agent-Generalship would be considered on Tuesday next.

Mr. Flowers, the present Vice-President of the Executive Council, had not yet received any of his official positions.

Mr. Holman yesterday said he expected the resignation of Mr. Hume as a member of the Ministry next Tuesday.

In addition to being Vice-President and Government representative, Mr. Fitzgerald will also represent Mr. Hume as a member of the Ministry next Tuesday.

Mr. Black will be sworn in as Minister for Health, in addition to his duties as Chief Secretary.

The Premier has received a letter from the Belgian Consul expressing King Albert's thanks to the N.S.W. Government.

The Majesty, the Governor, and the members of the Executive Council, have expressed their sympathy and the relief he has given.

Mr. Holman has received a unique commission from General Joffre, the French Commander-in-Chief.

It consists of one of the General's cards, engraved in his own handwriting, "very warm sincere thanks."

It is apparently in recognition of the Government's monetary assistance to the French Commander-in-Chief.

Theodore Zwickler, trading as Theodore Zwickler and Co., was convicted of attempted embezzlement at Melbourne yesterday.

The defendant, saying he gravely doubted whether he should be imprisoned, fined him £500, with 45 shillings costs.

On and after Monday next the export of butter from the State is to cease entirely.

The Minister was expressed by Mr. Hall yesterday after a conference with a committee of butter traders.

Mr. Hall is to be set aside as Minister for the State, the entire State of New South Wales.

The idea is to show what can be done in one day.

This afternoon the farewell parade of Australian troops will take place through the city.

The Governor of New South Wales, Viscount Haldane, and his wife, Lady Haldane, will leave for London.

Mr. Alexander Pearson at Melbourne said the effect of the State was shown by the presence of the State.

He said the Chief Secretary was proposing to the Minister to the Melbourne Gaol into a technical school.

Mr. Samuel Griffith, Chief Justice, has received the State to the promoters of the "Follow the Flag" movement.

At Liverpool last night Colonel Holmes, who was in the State, was travelling alone, adding that no blame attached to Mr. Baker, the car driver.

The motor ambulances presented to the War Office by Dr. Davis, of Stone, and his brother are completed.

Davis will take the ambulances with him during his tour of the State.

Business brightened considerably on the Sydney stock exchange yesterday, a very fair volume of sales being recorded at improved prices.

Business done in the mining section yesterday was again on very restricted lines in all branches.

Prices were, however, well maintained.

Order to insufficient supplies of butter in the market.

## TURKEY.

## TROOPS LANDED.

## WESTERN FRONT.

## FRENCH ADVANCE.

The landing of British troops at Enos is confirmed by fugitives to Bulgaria.

It is stated that the Turkish commandant ordered the port of Enos to be evacuated.

The French report a further gain east of St. Mihiel.

German attacks have been repulsed by the British in Flanders.

The enemy bombarded Ypres, doing considerable damage.

Austrian night attacks at Teplitz, in the Carpathians, were repulsed with heavy losses.

## WESTERN FRONT.

## BRITISH IN FLANDERS.

## FRENCH GAIN.

FAIRFAX, April 23. A communication states: The British repulsed two attacks near Langemark. We carried two lines of trenches forming an encircling salient in the forest of Ancefont east of St. Mihiel. The Germans left a large number of corpses.

## YPRES BOMBARDED.

AMSTERDAM, April 23. Enraged with the Turkish successes south of Ypres, the Germans bombarded the town on Wednesday night, doing considerable damage. A number of persons were killed and wounded.

## AT HILL 60.

## DAILING ARMY.

LONDON, April 22. "Eyewitness" at British headquarters states that motor machine-guns rendered invaluable service at Hill No. 60, where they rushed to the front during a counter-attack.

The Allied armies also did invaluable service in the fight for Hill 60. Their skill and daring drove off and captured many enemy men venturing over the Allied lines. Five were brought down. This occurred at a moment when the attack was being carried out in secrecy.

## A FRENCH SUCCESS.

## TERRIBLE ARTILLERY.

The Press Bureau has issued the story of the capture of Bois d'Avilly, which was strongly fortified. The enemy employed large forces of artillery from Metz.

The French on the morning of April 5 concentrated artillery on the German position, and added by aerial torpedoes, fired from short distances, soon shattered the parapets, and corpses could be seen still, grating rifles held over the trenches.

The intensity of the artillery fire was so deadly that the trenches were rapidly cleared. Some persons state that the French left an impression of a great battle, and that the enemy was repulsed, and that the French were advancing.

## ALLIES IN TURKEY.

## LANDING OF TROOPS.

## HEAVY CANNONADE.

LONDON, April 22. A Berlin wireless message states that 20,000 English and French troops have been landed at Enos (Turkey in Europe, at the mouth of the Maritima, 12 miles south-east of Dedagatch).

There was a heavy cannonade between the Turkish batteries and the Allies' ships.

## PORT EVACUATED.

SOPIA, April 23. Fugitives confirm the landing of the British at Enos. They report that the Turkish commandant ordered the evacuation of the port.

## FLEET AT WORK.

ATHENS, April 22. The Allied fleet was bombarding the Gallipoli Peninsula, where the Turks are erecting fortifications.

## THE MANITOUL.

## STORY OF ATTACK.

LONDON, April 22. In the House of Commons this evening, Mr. T. J. Macnamara, Parliamentary Secretary to the Admiralty, stated that a Turkish destroyer, which had escaped from Smyrna, stopped the transport Manitou, and those on board were given eight minutes to abandon the transport. Three torpedoes were fired by the Turkish vessel, but missed. British destroyers then attacked the torpedo boat.

Mr. Macnamara added that, while the troops were leaving the transport, two of the boats exploded, one owing to overcrowding. There was nothing disquieting in the incident, and no panic occurred. Twenty-four men belonging to the Field Artillery were drowned in the Manitou disaster, and 24 are missing, also two of the South Wales Borderers.

## FLEW RUSSIAN FLAG.

ATHENS, April 23. A Greek sailor who was on the Manitou, states that the Turkish destroyer was flying the Russian flag when she sighted the Manitou to stop, and in the latter played. When 150 yards away the destroyer hoisted the Turkish flag, and discharged a torpedo.

Feeling she was doomed, the Manitou lowered all her lights, which were crimson with men when the relief cruiser arrived.

## IN MESOPOTAMIA.

## TURKISH ROUT.

LONDON, April 23. The India office states: The defeat of the Turks at Shalala was more complete than we hoped. They abandoned motor cars, gun and ammunition wagons, while turned Arab tribesmen harassed the Turkish rout.

There are persistent rumours that Sultan Mehmed VI. has fled from Constantinople, and that the Turkish Government has fled to the interior.

## CARPATHIANS.

STRIFFLE CONTINUES. The intensity of the artillery fire was so deadly that the trenches were rapidly cleared. Some persons state that the French left an impression of a great battle, and that the enemy was repulsed, and that the French were advancing.

## AUSTRIAN ATTACKS FAIL.

PETROGRAD, April 23. A communication states: Austrian night attacks on Teplitz were repulsed, and the Russians, counter-attacking with the bayonet, drove back the enemy, with heavy losses.

## RIOTING IN TRIESTE.

STEAMER SCUTTLED. Rioting was reported at Trieste on Wednesday, being the sequel to a summons to arms of males from 18 to 50 years of age.

Several thousand women led the rioters to the Governor's palace, shrieking: "We want bread! Give us back our husbands and sons!" When the Governor threatened to call out the troops the mob ran amok, breaking the windows of Austrian banks, and wrecking the fashionable Palace Hotel.

Dockers scuttled a large steamer which was about to leave with 800 tons of food for the Cattaro garrison. The crew escaped.

## SOUTH-WEST AFRICA.

ENEMY WORSTED. It is officially stated that the "Union" army's right wing, under General Kirk Vandenberg, defeated the enemy at Katun, 20 miles north of Keetmanshoop, from whence they were retreating.

The enemy numbered 600, with five field guns. They lost 40 killed and wounded. Our losses were slight.

## LIQUOR PROBLEM.

LIMITING FACILITIES. Mr. Asquith announced in the House of Commons today that Mr. Lloyd George, Chancellor of the Exchequer, on Wednesday and Thursday would introduce proposals for limiting facilities for the drinking of liquor, and that the Bill would be introduced the week after next.

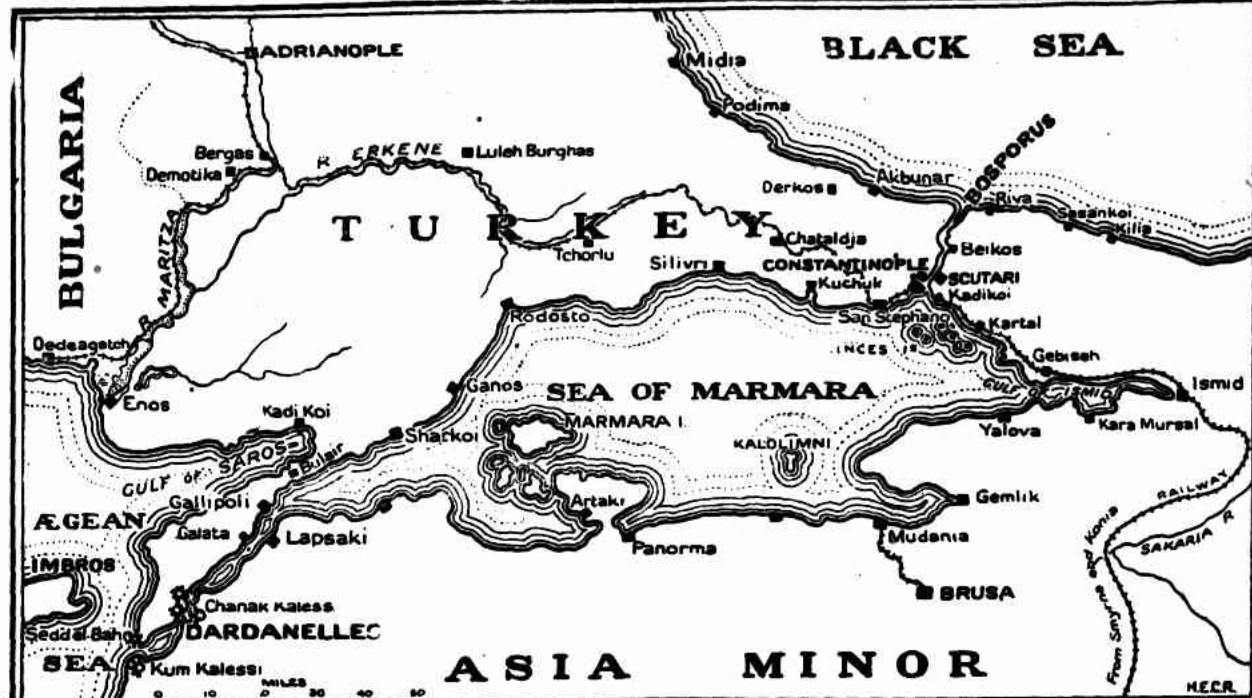

## ARMAMENT FIRM.

DIRECTOR RESIGNS. Colonel Sir Percy Gifford has resigned from the post of Director of Armaments, Whitworth, and has been appointed major-general.

## SIGNIFICANT ACTION.

ROME, April 22. Italy has suspended the running of the trans-Atlantic liners, which the Admiralty has requisitioned for auxiliary cruisers and transports.

## THE DARDANELLES CAMPAIGN.

The above map shows Enos, the town to the north of the Gulf of Saros, where a section of the Dardanelles Expeditionary Force has been landed. It is just on the Turkish side of the Bulgarian frontier, and 12 miles from Dede Agach, the Bulgarian port which is connected with Adrianople and Constantinople by rail.

## SUBMARINE WAR.

## TRAWLER SHELLED.

## CREW UNINJURED.

LONDON, April 23. A German submarine shelled the trawler Enos on the east coast on Wednesday. The crew took to the boats, where they were again shelled. They were picked up by another trawler after waiting two hours.

The fate of the Enos is unknown. The crew were uninjured.

## GERMAN PRIZE.

## TAKEN TO PORT.

BERLIN, April 23. A submarine captured the British steamer Glen Carno, off Aberdeen, and brought her to a German port.

## BLOCKADE FARCE.

## A WEEK'S RECORD.

LONDON, April 23. For the week ending April 21 the arrivals and departures of vessels from Enos totalled 1519. One vessel and a fish boat were sunk.

## TREATMENT OF PRISONERS.

Mr. Neil Primrose, Under-Secretary for War, replying to a question in the House of Commons by Lord Charles Beresford, said that Great Britain had informed the United States that she was willing to allow Germany to inspect the treatment accorded German submarine officers, if similar facilities were granted a British representative to inspect the treatment of British prisoners in Germany.

## GERMAN PROPERTY IN BRITAIN.

In the House of Commons, Mr. J. M. Robertson (Parliamentary Secretary to the Board of Trade) stated that German property in Great Britain, valued at £4,000,000, would remain available for future disposal as needed.

## BRITAIN AND HOLLAND.

SHIPPING SUSPENSION. An official British notification states that all shipping between Holland and the United Kingdom is temporarily suspended, but it is hoped shortly to resume a limited service.

## GERMAN TRADE.

## AMERICAN STATISTICS.

NEW YORK, April 23. Customs returns show that German imports to the United States for March amounted to £1,200,000, as compared with £2,250,000 in March, 1914.

Only 2313 tons of goods was exported to Germany direct, but exports to Denmark and Sweden in March were nearly double those of February. There was a 20 per cent increase of exports to Holland from the United States.

## AUSTRALIAN MEAT.

## WAR OFFICE CONTRACTS.

LONDON, April 22. In the House of Commons, Mr. Will Thorne (Labour) asked a question which suggested that Birtwick and Sons had demanded an increased price for meat owing to the war, though the meat was to be firm in the Queensland before the declaration of war.

Mr. E. Baker (Financial Secretary to the War Office) replied that Birtwick and Sons, Ltd., supplied full requirements, as originally estimated. The contract price allowed a slight rise for meat in excess of the estimate. Mr. Gordon Campbell, Weddell and Co., Ltd., had been given valuable assistance to the department to purchase meat without commission or remuneration.

Mr. Baker denied that the War Office had been approached by the Incorporated Society of Meat Importers, which Mr. Thorne had described as a ring of Australian importers covering colonial meat. The prices the War Office paid were never higher and often lower than those quoted in the lists of the Incorporated Society.

## RECRUITING.

## KITCHENER'S ARMY.

## GRATIFYING RESULT.

LONDON, April 22. In the House of Commons, Mr. H. J. Tennant, Under-Secretary for War, in a statement on the Estimates, said that Lord Kitchener had authorised him to say that recruiting during the past few months had been most satisfactory, the numbers having been maintained with amazing regularity. He was confident when he appealed to the nation for more men they would come with the same readiness and promptness. One hundred thousand had been raised by individual efforts alone.

The medical and sanitary arrangements were remarkable. Wounded men were often in this country within 24 hours of being wounded. There had been no cases of enteric fever since the commencement of the war.

Lord Kitchener, he added, desired to re-emphasise the importance of a limited supply of artillery ammunition.

## WAR AND INDUSTRY.

## COAL-MINING DISPUTE.

LONDON, April 22. The Miners' Conference by 520,000 votes against 135,000 defeated a resolution in favour of a national strike.

They passed a resolution asking the Government to summon a national conference.

Mr. Walter Runciman (President of the Board of Trade) met the coal owners at Whitehall today.

As the outcome of the meeting between Mr. Runciman and the coalowners it was agreed to recommend various districts to consider the lowering of the price of coal.

## SHIPYARD WORKERS' PROMISE.

Workmen in certain Belfast shipbuilding yards, in response to Mr. Winston Churchill's request, have promised to carry out Government work.

## WAR NOTES.

## THE LANDING AT ENOS.

From a purely Australian point of view the most interesting item in this morning's cables is that which tells of the landing of troops at Enos, in the Aegean; for it is highly probable that the Commonwealth will represent this section of the Dardanelles Expeditionary Force.

It is not clear yet what is the strength of the body of troops thrown into Enos. The only message which deals with numbers is one emanating from Berlin, which declares that 20,000 men have been landed. This might or might not be a correct estimate, and it would be well for us to await some corroborative news from other sources before we are led to draw conclusions.

Still, as the Allies have decided on a landing at Enos at all, it is certain that they would send a considerable body of men ashore. Enos, which is just to the north of the Gulf of Saros, and about the easternmost point of the Gallipoli Peninsula, is a small town, and it is in a malarious marshy locality. It has about 700 inhabitants, and it is choked with sand, and admits only small vessels. The transports would thus have to beach on the shore, and the troops would have to march round it to begin operations against the Gallipoli Peninsula, but there are a couple of considerations which might explain it. One is that perhaps the Enos landing is in the nature of a diversion, and that an attempt will yet be made at the head of the gulf, and another is that it may have been four miles to land troops at the apex of that inlet, that Enos represents the most favourable landing place on the north shore. Just at present it is not clear why an attempt has not been made to throw troops into Turkey at the head of the gulf, for those who at Enos will have to march round it to begin operations against the Gallipoli Peninsula, but there are a couple of considerations which might explain it. One is that perhaps the Enos landing is in the nature of a diversion, and that an attempt will yet be made at the head of the gulf, and another is that it may have been four miles to land troops at the apex of that inlet, that Enos represents the most favourable landing place on the north shore. One is that perhaps the Enos landing is in the nature of a diversion, and that an attempt will yet be made at the head of the gulf, and another is that it may have been four miles to land troops at the apex of that inlet, that Enos represents the most favourable landing place on the north shore. Just at present it is not clear why an attempt has not been made to throw troops into Turkey at the head of the gulf, for those who at Enos will have to march round it to begin operations against the Gallipoli Peninsula, but there are a couple of considerations which might explain it. ## MAN FINANCE.

**NO. 1 BORROWED.**

LONDON, April 22.

2 millions at 41 per cent.

Friday. The prospectus was issued. The bonds are to be repaid in 10 years. The final instalment payable on July 25, while the option of converting into stock till August 3. The "Financial" points out that the loan will be at the highest price of the war.

**OF THE LOAN.**

MELBOURNE, Friday.

Explained by the Treasury for the loan had been to be rate of interest 41 per cent and interest. Tenderers for the loan or stock. It either will be for 10 years, with redemption by the government at the notice. The conversion

at approximately £1 per  
net price of £98, which  
£4 16s 2d per cent., taking  
of 10 years, including in-  
tion. Making comparison  
previous London issues the

point out that the price of a £200 note, the extra amount that would have been received if interest had been paid at the previous rate. The main will really instead of paying £2 is a half-year's interest that will pay only £1 2s 6d, the price £10 2s 6d, the interest rate is £4 12s 2d per cent date of 10 years.

It has been made by the State financial necessities for the £2,500,000 was obtained Government for Public works, the assured will work of electrifying the country.

They were granted loans by the November they under- took in the London market of the Federal Treasury, money locally than was relating to London was in- the insurance of London that Embarked. That removed.

It was embarked that the price increased in the last or broke out.

**RE IS IT?**

ological balloon, which was des-  
cended from the Sydney Observatory on  
Monday, for the purpose of re-  
cording the nature of the air at high  
altitudes. It has been found that  
the temperature of the air at 10,000  
feet was 40° below zero, and the  
barometer stood at 20.5 inches. The  
balloon was launched at 10.30 a.m.  
and reached its maximum altitude of  
10,000 feet at 11.30 a.m. The  
balloon was then descended and  
landed at 12.30 p.m. The results  
of the observations are as follows:

activity of the Burroughs and another balloon ready to go as the weather conditions were, when there is a steady wind from the north or north-east, but a westerly wind, and if we sent the balloons up, it would be certain having to travel in the air.

**IRE DAY.**

**COONAMBLE, Friday.**  
It was decided to celebrate a picnic and sports for the day. The day was a success, the whole of the cost was £20 and £50. The day was a success.

**BROKEN HILL.**

**BROKEN HILL, Friday.**  
The day was a success, the whole of the cost was £20 and £50. The day was a success.
